SUMMARY

Accomplished Full-Stack Developer with experience in high-impact mobile and web applications. Expert in delivering scalable solutions for iOS, Android using Flutter. Skilled in agile development and team collaboration, I excel at fostering a culture of innovation and continuous improvement. Expert in UI/UX collaboration, bridging front-end aesthetics with high-performance back-end architectures built on Node.js, Go, and Laravel

PROFESSIONAL EXPERIENCE

Omishtu-Joy Tech Solutions <i>flutter mobile app developer</i>	08/2025 – 11/2025 Ethiopia
--	-------------------------------

Developed cross-platform mobile applications using Flutter, Dart, and GetX for state management. Built responsive and interactive UIs, integrated with APIs, and delivered high-performance apps for iOS and Android while working remotely and managing projects with Trello

Internship (Omishtu-joy Tech Solutions) <i>backend laravel developer</i>	04/2025 Ethiopia
--	---------------------

Worked as a Laravel backend developer and Vue.js frontend developer, building RESTful APIs, managing database interactions, and creating dynamic, responsive user interfaces for web applications. Collaborated with the team using Agile practices and version control

SOFTWARE ENGINEERING CGPA 3.98/4.0

Bahirdar University 🔗 <i>Bachelor of Science in Software Engineering</i>	05/2022 – Present Bahir Dar, Ethiopia
--	--

PROJECTS

DevTool – Go CLI for Git and GitHub Analytics 🔗 <i>Independent Project / Open-Source</i>	03/2026 – 03/2026
--	-------------------

Developed a cross-platform CLI tool in Go for GitHub analytics and project scaffolding, featuring PR/contributor stats, repo detection, and interactive prompts (Cobra, PromptUI, Lip Gloss). Released multi-platform binaries for macOS, Linux, and Windows

Ayb Equb

08/2025 – 11/2025

A modern digital solution for managing Equb savings and communications

Developed a Flutter mobile app for a digital Equb platform as a client project with a teammate, allowing users to manage savings, receive updates, and real-time messages. Integrated secure REST APIs and built a responsive, user-friendly UI

Snapkors

06/2025 – 10/2025

Educational Content & Quiz Marketplace

Designed and developed a platform where students can sell notes, assignments, and take quizzes. Supported role-based functionalities for agents and content creators, leveraging Node.js, PostgreSQL, Flutter, and Supabase/Firebase.

HR-Kpi System

04/2025 – 05/2025

HR Management and KPI System (Internal Use)

Developed an internal HR system for Omishtu Tech to manage employees, attendance, and KPIs. Built with Laravel (Spatie), Vue.js, and MySQL, delivering a scalable and user-friendly platform
